

◆ Digital transformation in Construction Administrative & Housing Inspection

- ✓ The digitization rate of building certification applications has been increasing year by year.
- ✓ In April 2024, remote attendance by applicants and remote inspections by inspectors for completion inspections and interim inspections were officially approved by the national and local administration.

- Digitization Rate of Building Permit Procedures
Target: 50% by March 2026

- Remote control by certified Inspector
Leverage the various tools-Drone, 3D measuring device etc.
